

# Do You Know Why You Will Go Out of Business Buying This Type of Unit?

- 1 Fewer donations!** - Charity sign/decal too **small** to read causing the unit to make a lot **less** money from lost charity donations!
- 2 No cover lids!** -
  - A. This means you can't **fill up** your vendors at **home** and **load** them in your car without snacks **spilling** out of the unit!
  - B. You will have to **vacuum** out the **inside** of the unit **weekly** due to the **dust** and **dirt** that will get **inside** of the unit because of **not** having a cover lid!
- 3 No variety!** - You can only sell **one** selection of snacks! Selling **more** than one selection of snacks at a time requires the customer to **dig** around for their favorite snack, which customers **hate** and will **not** do! Selling only **one** snack selection means selling a lot less snacks!
- 4 Does not accept Dollar Bills!** - Even if you **fold** them **twice** it still **jams** up the coin slot. This unit only accepts coins!
- 5 The Money Can Be Easily Stolen!**
  - A. No lock and key!
  - B. The money **sits** inside a **cardboard** coin box waiting to be stolen!
- 6 Only cardboard!** - The unit is made of just very **cheap cardboard!** Remember, it's **nothing** more than a **cardboard box!** In 3 months you will have to throw it away and you're out of business. Cheap is **not** good and good is **not** cheap!
- 7 No brochure holders!** No brochure holders are attached for the **charity** you are representing. This dramatically **decreases the money** your vendor can make for you because of lost charity donations!

# Do You Know Why You Will **Go Out of Business** Buying This Type of Unit?

(Continued)

**8 Chocolate will melt!**  
These types of vendors are **not** made with PVC material that **insulates** the sides of the vendor from **the sun** and other **heat** sources like sitting too close to a pot of hot coffee. Your **chocolate** will **melt** in these types of vendors.

**9 No suction cups!**  
None of these vendors have **suction** cups to **protect your investment...** your vendor! Anyone could just walk off with your vendor just by **lifting** it up and **walking** out of the store with it.

**10 No lifetime warranty!**  
With these types of vendors you can forget about asking for a lifetime warranty. You **won't even get a 3-month warranty!** Why? Because the units **aren't** made of **space age, high-impact acrylic, PVC** and **ABS** materials, most of these vendors **won't last 3 months!**
